

TRIBUNAL CLERK VERIFICATION INSTRUCTIONS

QS AI — Version v1.0.0

Issue Date: 14 February 2026

These instructions are provided to assist the Tribunal Clerk or designated officer in verifying the integrity of the QS AI Tribunal Pack v1.0.0 prior to circulation or filing.

- 1 Confirm receipt of the file: QS_AI_Tribunal_Pack_v1.0.0.zip.
- 2 Confirm receipt of the file: QS_AI_Tribunal_Pack_v1.0.0.zip.sha256.
- 3 Using a SHA-256 checksum tool, compute the hash of the ZIP file.
- 4 Compare the computed hash value with the contents of the .zip.sha256 file.
- 5 If the values match exactly, integrity of the archive is confirmed.
- 6 Extract the ZIP archive and verify that all listed artefacts correspond with MANIFEST.json.
- 7 Optionally, verify each individual PDF file using its corresponding .sha256 checksum file.

If any checksum mismatch occurs, the archive must not be relied upon and the submitting party should be notified immediately.

This instruction sheet is procedural in nature and does not constitute expert evidence.
